

Ultra Lite Travel Trailers

Takeda Travel Trailers offer unmatched value, with superb quality and ultra lite weight (less than 3000lb when fully loaded) providing fuel efficient towing with most mid-sized Mini-vans and SUV's. Nowhere else in this price range do you find welded aluminum vacuum bonded construction and composite floors with other features including residential style face frame cabinet construction. The Takeda is the leader in lite weight rugged designs combined with durable high quality materials and ample flexible storage space. The frames are built with high-strength light weight alloys with powder coating for enhanced rust protection. Included are many standard features that are often found to be options on comparable trailers. The Takeda factory team is committed to provide high quality, long lasting trailers that will provide years of enjoyment.
